Deep Learning: Project based Assignment

Date of Submission: 2/05/2025

Dear All,

Following instructions have to be considered for the project based assignment:

1. Make the groups of 2-3 students and submit one page synopsis having the following details by **March 2, 2025** after discussion:

- Problem statement
- Functionally of the project
- Chosen Algorithms
- References

2. Each group will study total 10 research papers for chosen project. Papers chosen must be ranging from year 2021-2025. Few research papers may be from previous years in case of unavailability.

3. Final project submission will be conducted on **May 2, 2025**. Final project report should consist of the following points:

- A. Introduction
- B. Literature review
- C. Proposed methodology (Methodology): Algorithm/ flowchart
- D. Data Set(s) and Results
- E. Conclusion

Presentation and viva on this assignment will be done during lectures and dates will be informed.
